Download Now. Waves - Complete v11.0.46 VST, VST3, AAX, STANDALONE. .  
Waves - Complete v11.0.46 VST, VST3, AAX, STANDALONE. All Waves  
plugins (Native): Waves 11 Complete v11.0.46 VST, VST3, AAX,  
STANDALONE. What's New:. Global update across all Waves versions  
11-13. Global update across all Waves versions 11-13. . Incorrect  
entered AAX settings are now corrected. VST settings are now always  
output only (no more record inputs) on Windows 8 machines. Multi-  
channel inputs/outputs are now supported in stereo mode. The menu of  
the main screen (page) has been improved. New: New main screen has  
been added. In this new main screen there is a new tab, called the  
'plug-in main screen'. In it all all of your plug-ins will be shown.  
New: New effect tab has been added. New: New Plug-in tab. In this new  
Plug-in tab, you have access to all of your plug-ins. New: Audio Sync  
lock (when Audio Sync is enabled) is now not disabled at start up. How  
To: Audio sync lock settings are now shown in one list in the main  
screen. New: 'Waves' button is now shown on the main screen (page).  
New: The main screen (page) has been replaced with a new one. New:  
Completely new API (AL). New: The recording now starts when the record  
button is pressed, and recording can be stopped via the record button  
too. New: Now when you press the record button the wave file is saved  
to the plugin (where you can select where to save it). When you stop  
the record the file is automatically sent to the selected folder of  
your choice. New: Access to plugins that are shared from VST3 can now  
also be had from the main screen (page). New: Volume automation is now  
shown in the graphical UI (in the view > graph). New: Plugin widgets  
are now shown in the main screen. New: Browser scrollbar is now shown  
in the main screen, and it can be scrolled. New: Library items can now  
be moved. New: Plugin is now shown in the library as well. New: You  
can
